

EFC Minutes for February 9, 2006

All members and Senior Associate Dean Bob Forsythe were present. Meeting began at 9:30

The committee reviewed a draft set of guidelines from the Undergraduate Programs Committee regarding excused absences. The committee made a number of suggestions, most of which specifically addressed student obligations, which had not been addressed in the draft. Other suggestions included providing a list of student activities for which they must be excused from class, and a more exact definition of what types of classwork they must be allowed to make up. John Solow, representing UPO in this matter, agreed to take the comments to them and report back to the EFC at a later date.
