

Jason Josko

Partner, Digital Risk Solutions Practice
PricewaterhouseCoopers

Jason is a Partner in PwC's Digital Risk Solutions (DRS) Practice. His team uses advanced technology and data analytics to help clients better detect, monitor, predict and mitigate risk.

Jason has been with PwC for 20 years and has helped his clients transform their underlying data into actionable information in support of audit, regulatory and compliance risk, and transformational change. He has specialized in various areas over the years, including audit automation, internal audit analytics, fraud monitoring, spend analysis, leveraged purchasing, anti-money laundering (AML), and lease accounting.

Currently, Jason leads the national Accounting Crisis solution area, helping clients quantify, root cause and remediate accounting and finance issues (e.g. Material Weakness, Significant Deficiencies).

Jason is also responsible for leading PwC's DRS practice Diversity & Inclusion (D&I) and Learning & Development pillars. Away from PwC, Jason is a Board member for the March of Dimes Chicago. He resides in Inverness, Illinois with his wife (Lauren) and two kids (Joe, Mia).
