

Stephen Belyn

Managing Director of Corporate Finance &
Restructuring

FTI Consulting

Stephen Belyn is a managing director within the Corporate Finance & Restructuring practice of FTI Consulting. He has 20 years of experience in performing financial and accounting due diligence on behalf of leading global financial institutions. He advises lenders of the risks with their customers' collateral and the related accounting policies to create borrowing base availability structures. He has participated in or led over 100 transactions and has analyzed company assets ranging from \$5 million to over \$2 billion.

Belyn began his career with Arthur Andersen & Co. in Chicago where he was a staff financial auditor. He later worked for Ameritech Corporation as an internal auditor and senior financial analyst.

He received a BBA in accounting from the University of Iowa and an MBA from Northwestern University's Kellogg School of Management. Belyn is a second generation Tippie alumnus – his mother received a PhD in business education from the college. He has been a Certified Public Accountant in the state of Illinois since 1992. He was the Tippie College of Business 2016 Alum of the Year, the 2018 Tippie Accounting Alum of the Year, and a past member and president of the Tippie Professional Accounting Council.

Belyn and his wife, Pamela, have given significant time and resources in support of the Tippie Gateway Program which works to attract prospective students from underserved, low income or first-generation backgrounds to study business at the college. They believe that everyone, regardless of their background or circumstances is entitled to a quality education and in particular a business education from the University of Iowa. To that end they established a fund to help underwrite the costs and provide scholarship opportunities related to the Tippie Gateway Program.

The Belyns have two children, Hannah and Jacob, and they live in Chicago.
