

## Thomas "TJ" Elbert

Chief Operating Officer,  
Get Well Network

---

TJ Elbert joined Get Well in November 2024 and serves as the Chief Operating Officer. He brings over 15 years of healthcare information technology, data warehousing, and analytics experience to Get Well.

Prior to joining Get Well, TJ served as Senior Vice President and General Manager of the Technology Business Unit at Health Catalyst. He has also held a number of leadership roles at Northwestern Medicine in data warehousing and population health. Prior to Northwestern, he worked as an Integration Architect at Cerner Corporation where he led a number of large health system EMR implementations and services engagements.

TJ graduated from the University of Iowa with a Bachelor of Science in Industrial Engineering as well as a MBA and Master of Science in Business Analytics.
