

Lindsey Possehl

Senior Data Scientist, Customer
Analytics & Reporting
Ruffalo Noel Levitz

Lindsey Possehl has spent her career at Ruffalo Noel Levitz in predictive analytics for higher education and nonprofits. She is a member of the Customer Analytics and Reporting team, currently serving as a data scientist.

Lindsey's responsibilities include predictive modeling, product development, and reporting, serving both enrollment and fundraising clients. Her background is in machine learning, semantics analysis, recommender systems, and big data.

Lindsey holds a B.S. degree in applied mathematics, and a B.S. degree in computer science with an emphasis in machine learning from Western State Colorado University.

She currently lives in Tiffin, Iowa and enjoys being active outdoors.
