Joni Wallace
Principal Manager, Analytics and Data Science
Rockwell Collins Inc.

Joni Wallace is the principal manager of analytics and data science at Rockwell Collins Inc., headquartered in Cedar Rapids, Iowa. She is responsible for data management, data visualization, and data science information technology services.

Joni spent the last decade leading global analytics teams and spearheading innovative technology solutions for insight-driven customers.

Prior to joining the aerospace and defense industry, Joni consulted for Accenture, based in Chicago, Illinois, focused on supply chain optimization technology.

She received a BBA in finance from the University of Iowa and is anticipating an EMBA in business analytics from Loras College in 2018.
